Specifications Subject to Change Without Notice. See Uniden Website for any changes: www.uniden.com.au
Unit must only be used in country of purchase.

* Caller ID and POP Features work only if you subscribe to the service provided by your local telephone company. There is usually a fee for this service. Caller Type 2 service is currently not available in New Zealand.

Diagram illustrates Concept Only. The actual enclosed product and its colour is shown on the front of the box.

^ When a power failure occurs, the charged handset temporarily supplies power to the base unit. You can then make and receive calls using a handset. However, none of the keys on the base unit are functional during the power failure mode and the power life is limited to that of the remaining power life of the cordless handset battery.

Photography and illustrations may differ slightly from actual product. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Uniden is under license. May contain additional foreign articles.
