DIGITAL WIRELESS
**BABY VIDEO
MONITOR**

From the range of award winning baby monitors, Uniden is pleased to introduce the latest in Wireless Video Monitoring Systems. This system has a large 4.3" colour screen designed to monitor the safety of your sleeping baby or kids playing with an exceptionally user-friendly, high quality digital encrypted monitoring system. This Baby Watch even lets you view your child on a smart phone from anywhere in the world.

That's right, monitor the safety of your children from anywhere in the world securely through the dedicated Uniden Guardian App. Simply just download the App on your Smartphone or Tablet and you can remote access your camera immediately.

Download our FREE Uniden Guardian App to smartphones and tablets.

Available for: iPod Touch®, iPhone®, iPad® and Android™

The BW 3401 features a Digitally Encrypted System for Secure Digital Crystal Clear monitoring. This protects against eavesdropping and hacking for added Peace Of Mind.

This system comes with a 4.3" Colour LCD Display Receiver so that you can see and hear your child, even in darkness, with the camera's special Night Vision feature. Night Vision gives excellent monitoring visibility without the need for the room light being turned on. The system can even be expanded to accommodate 4 cameras.
