Range Brochure PDF

Operating Manual PDF

Uniden's 2.4GHz Digital Spread Spectrum (DSS) cordless phones are versatile and contemporary to suit households of any size.

They utilise the 2.4GHz frequency to deliver outstanding sound clarity. Thanks to their Digital Spread Spectrum technology, these phones deliver long range.

They also feature a digital duplex speakerphone on handset, alpha display caller ID and two-way communication between handsets anywhere without the base.

Excellent quality, performance and powerful features make the DSS 2415 the most versatile and one of the most powerful cordless phones on the market.

This product is an optional handset to enable you to expand your Uniden 2.4GHz cordless phone.

Suggested Retail: \$99.95

This is an additional handset and will only work in conjunction with the DSS 2415, DSS 2455 and DSS 2465 phone.
