UP TO 10 METRES

ADDITIONAL FEATURES

- MICRO SD CARD
- INTELLIGENT ALERTS

Connects to your WiFi allowing you to view your camera from your smartphone or tablet from anywhere in the world

THERMO SENSE

HEAT & MOVEMENT SENSOR DETECTION

RANGE OVERVIEW

50 YEARS + GLOBAL EXCELLENCE
SINCE 1966

DIY SIMPLE INSTALLATION

Uniden®
GUARDIAN

XLIGHT

ULTIMATE FLEXIBILITY

Use as a standalone camera & light or extend your GXVR55 series security system.

Deterring crime and unwanted intruders around the home or business.

THERMO SENSE HEAT & MOVEMENT SENSOR DETECTION

Thermo Sense technology is a smart heat sensor that detects motion from people as opposed to movement from trees and false alarms. The Thermo Sense feature on Uniden security PIR cameras allows you to receive notifications from actual events giving you the ability to act quickly and call the police when needed.

IN THE BOX

1 x XLIGHT with mounting bracket & 3m USB power cable

1 x Mounting Screw Kit

1 x USB Power Adaptor

1 x Pry Bar

KEY FEATURES

FULL HD 1080P (2MP) VIDEO

Capture more detail in higher definition.

WEATHERPROOF*

Designed for Australian and New Zealand weather conditions, protecting against dust and strong rain.

CLOUD BACKUP & VIEW*

Backup and view any events captured on the camera to the Uniden Cloud.

MICRO SD CARD

Supports up to 128Gb micro SD card for local storage (SD card not included).

INTELLIGENT ALERTS

Get instant app push notifications, email and sound alerts when motion is detected.

TWO-WAY TALK & SIREN ALERT

With a 110dB siren and two-way communication, actively monitor and deter intruders using the Guardian 365 Pro app.

H.265 VIDEO COMPRESSION

Save up to 50% on bandwidth and storage – allowing more video storage compared to H.264

NIGHT VISION

Infrared night vision for greater clarity, even in complete darkness up to 10 metres.

OPTIONAL SILICON SLEEVES

The optional silicon sleeves not only adds an extra layer of weather protection but will also help minimise dust and dirt on the lens.

Some jurisdictions and authorities may regulate the use of surveillance products. It is the buyers responsibility to ensure they comply with the appropriate regulations when using this product. Specifications Subject to Change Without Notice. See Uniden Website for any changes. **uniden.com.au** *IP65 Weatherproof is defined as no ingress of dust; complete protection against contact (dust tight) and low pressure water jets projected against the enclosure of the camera from any direction shall have no harmful effects. # Requires WIFI router and internet connection and under same network domain. **Minimum Network Bandwidth Requirements:** For optimal performance of the smartphone app we advise a minimum network bandwidth of 4Mbps for Full HD (1080P) live stream, 2Mbps for HD (720P) live stream and 0.8Mbps for 352P live stream. If these bandwidth requirements are not met the live stream may not connect and will not be viewable on your smartphone. **Motion Detection:** Motion detection can be triggered by the PIR sensor in the camera. The PIR sensor only detects objects with heat up to 8 metres away and in the line of sight. At night, or in darkness, monitor motion detection sensitivity is not as effective as in daylight hours, as it relies on night vision capabilities.
