Range Brochure PDF 

Operating Manual PDF 

This handheld scanner with full frequency display offers 20 programmable memory channels - 8 bands.

Frequency ranges received are 66-88, 137-174 and 406-512 MHz. Chain searching allows five different personal search bands and the ability to search up to all five chain locations at once. Priority scanning allows a designated priority channel to be monitored every two seconds.

The UBC57XLT also has Police Channel Search which allows you to search through the 64 pre-programmed police channels.

Suggested Retail: \$149
