Operating Manual PDF

This handheld digital scanner with full frequency display offers 6000 programmable memory channels is now bundled with a digital remote control head accessory. The UBCD396T-RH96 with TrunkTracker IV☐ Technology, offers APCO 25 digital capability, allowing users to monitor the activities and signals of city and government service departments, utilising advanced scanner technology in an all new compact handheld design. Uniden☐s UBCD396T is poised to improve interoperability between large cities currently using the digital systems and those that still operate on analogue systems.

Offering the new Ground Breaking Technology ☐Close Call RF Capture Technology☐ this scanner automatically ☐Listens☐ for any nearby or ☐close☐ transmissions and once they occur the scanner immediately tunes in to this frequency which is ideal for use at events or locations when the transmission is unknown. The UBCD396T-RH96 is a state-of-the-art scanner radio with TrunkTracker IV☐ and automatic scanning capabilities. You can store frequencies such as police, fire/emergency, marine, air, amateur, and other communications into the scanner.

You can carry it with you wherever you go, use it at home as a base unit, and with the addition of a remote control head accessory it is ideal for in-car use. You can use the scanner☐s scroll control to quickly select channels and frequencies. You can also use the scanner☐s scroll control to quickly select channels and frequencies, or similarly automatically program channels in a system using the Auto-Store feature.

Suggested Retail: $1299.99
