With consumers now carrying so much information at their fingertips, Uniden has released what it considers the next step in making that information visual: a pocket projector.

How Does the Uniden Laser Pocket Projector Work?

Roughly the size of an iPhone and weighing in at 122-grams, the ULP 1000 Laser Pico Projector offers up to 120 minutes of projection time. Using patented laser technology, this thin, lightweight, pocket-sized projector reproduces stunning images on virtually any surface at any distance, ensuring that projected images are always in focus at any distance, even on curved surfaces.

- > Award Winning Patented Technology Inside
- > Sleek and Slim Projector

- > Images are Always in Focus at Any Size
- > Wide Projection Angle
- > Rich Vivid Colours
- > Uniform & Impressive Brightness - at 10 lumens

- > Exceptional Contrast Ratio: more than 5000:1
- > Better Resolution - WVGA [848 x 480]

Always in focus with a wide field of view the ULP 1000 is ideal for spontaneous big screen presentations and image sharing experiences. Additionally you can simply plug and play from most notebooks running Vista, Windows 7 and Mac OSX using Uniden's VGA 1000 dock and project life.

SEEING IS BELIEVING □ IDEAL FOR:

The device is designed to connect to a variety of devices, including iPods, laptop computers, digital cameras with TV-out, mobile phones with TV-out, handheld game systems and DVD players.

CONNECT TO A MULTITUDE OF DEVICES INCLUDING:

SPECIFICATIONS:

Resolution:	WVGA (848 x 480)
Aspect Ratio:	16:9 Widescreen
Contrast Ratio:	< 5000:1
Throw Ratio:	Approximately 1:1
Image Size:	From 150mm to 2500mm
Battery:	User replaceable lithium-ion
Dimension:	14mm x 60mm x 118mm
Weight:	122g with battery

"The amount of information we carry in our pockets these days between mobile phones and iPod devices is amazing. Unfortunately the screens we use to view these libraries of text, music, photos, and videos are also small with just a few square inches of display area".

"That's where the portability of the Uniden Laser Pico Projector comes into play. It amplifies the visual experience from mobile devices, combining ultra thin pocket-sized convenience with the power to project large high quality images."

People on the go can now share multimedia applications and programs such as presentations, mobile TV, movies and photos.

Suggested Retail: \$999.95
