## PEACE OF MIND – DUAL BACKUP FOR ALL MODELS

**MICRO SD CARD**

**7 DAYS FREE CLOUD BACKUP**

WITH OPTIONAL LONGER PAID PLANS AVAILABLE

Recorded footage and protection of that footage is a key element to best practice in security.

With the optional SD card any motion detection is recorded directly to the card for easy access via the free app.

As an additional safety protection to safeguard the recorded footage, it's automatically backed up to Uniden's cloud service. The cloud also gives you direct access to all the recorded footage during that period of time.

Uniden offers a substantial **7 DAYS FREE** cloud storage with all App Cam Solo's. For those who wish to back up footage for a greater period of time, there are other optional paid plans available.

## KEY RANGE FEATURES

NOT ALL FEATURES ARE ON EVERY SOLO SECURITY PRODUCT.

-  **100% WIRE-FREE OVER WIFI**  
Free from ugly cables and wiring hassles. No need for base stations.
-  **SOLAR POWER COMPATIBLE**  
Connect the Uniden Solar Panel for non stop power for battery recharging during daylight conditions\*.
-  **THERMO SENSE TECHNOLOGY**  
A smart heat and movement sensor that eliminates any false triggers and ensures you are alerted to real alerts.
-  **FULL HD 1080P**  
Get crystal clear vision with true Full HD 1080p. View live streaming in more detail.
-  **PAN & TILT**  
Rotates 355° horizontally and 140° vertically to cover every angle of your house. (PT model only)
-  **RECHARGEABLE BATTERY**  
Works without being plugged in. Long-lasting on one charge and compatible with the Uniden Solar Panel.
-  **SD CARD & CLOUD BACKUP**  
Micro SD card (not included) for local storage and cloud backup for offsite storage. 7 Days of Cloud Storage is offered with longer paid plans available.
-  **WEATHERPROOF DESIGN (IP65)\***  
Place the camera outdoors or indoors, without worrying about the weather. Uniden App Cam Solo range guards you rain or shine.
-  **4G MICRO SIM CARD CONNECTIVITY**  
Allows 100% flexibility, allowing placement where a WiFi network is not available. Simply choose a data only plan# from your preferred carrier and insert their supplied sim card (Micro SIM Card not included). 4G model only.

-  **STARLIGHT NIGHT VISION**  
Starlight CMOS sensor offers clearer night vision, up to 10 metres.
-  **WIDE VIEWING ANGLE**  
Wider field of vision to cover more of the house.
-  **SMART INTELLIGENT ALERTS**  
Get instant app push notifications, email and sound alerts when danger happens.
-  **CUSTOMISED VOICE-RECORDABLE ALERTS**  
Broadcast the personalised voice alert when motion is detected. Bullet and PT models only.
-  **SIREN ALERT TRIGGER**  
A siren, built into the camera, to deter unwanted visitors.
-  **TWO-WAY TALK**  
Listen to what's going on and talk back through the built-in mic and speaker.
-  **MOTION DETECTION RECORD**  
Save motion events on micro SD card (not included) or Uniden Cloud for later playback.
-  **LOW-BATTERY NOTIFICATIONS**  
Informs you when battery capacity reaches 10%.
-  **RAPID WAKE-UP**  
Wake-up at once when you view live streaming, or when motion events are detected.
-  **INNOVATIVE INSTALLATION DESIGN**  
Bracket and other accessories help it blend in any placement beautifully.

## THERMO SENSE HEAT & MOVEMENT SENSOR DETECTION

Thermo Sense technology is a smart heat sensor that detects motion from people, as opposed to movement from trees and false alarms. The Thermo Sense feature on Uniden security PIR cameras allows you to receive notifications from actual events, giving you the ability to act quickly and call the police when needed.

UNIDEN.COM.AU

Uniden Australia Pty Limited is a wholly owned subsidiary of Uniden Holdings Co Ltd. Some jurisdictions and authorities may regulate the use of surveillance products. It is the buyers responsibility to ensure they comply with the appropriate regulations when using this product. \*IP65 Weatherproof is defined as no ingress of dust; complete protection against contact (dust tight) and low pressure water jets projected against the enclosure of the camera from any direction shall have no harmful effects. † Ensure solar panel is directed at sunlight. Different weather conditions in Australia and New Zealand can affect the rate of charge to the battery. ‡ Cloud Backup records up to 480P resolution. # Requires WiFi router and internet connection and under same network domain or 4G Connection. Minimum Network Bandwidth Requirements: For optimal performance of the smartphone app we advise a minimum network bandwidth of 4Mbps for Full HD (1080P) live stream, 2Mbps for HD (720P) live stream and 0.8Mbps for 352P live stream. If these bandwidth requirements are not met the live stream may not connect and will not be viewable on your smartphone. Motion Detection: Motion detection can be triggered by the PIR sensor in the camera. The PIR sensor only detects objects with heat up to 10 metres away and in the line of sight. At night, or in darkness, monitor motion detection sensitivity is not as effective as in daylight hours, as it relies on night vision capabilities.
