### WDECT Wideband Digital® Technology - 2 in 1 Digital Phone System

Designed and engineered in Japan, Uniden's WDECT 2345 + 1 uses the innovative 2.4GHz WDECT technology.

WDECT is a Wideband digital technology which delivers increased clarity, range and security.

The WDECT 2345 + 1 combines both cordless and corded convenience with the inclusion of two handsets, making it the perfect communication accessory for the home or office. Operational even under power failure conditions, this 2 in 1 digital phone system also includes an Integrated Digital Answering Machine with remote access, Alpha Display Caller ID, 200 Caller ID Memories between the handset and base and the ability to allocate individual caller ring tones to enable easy caller identification.

Providing you with the convenience and expandability to create your own phone system, the WDECT 2345 + 1 is compatible with any WDECT handset in the range. This great product also allows Two-Way Communication between Handsets Anywhere without the Base and a Room or Baby Monitor feature. With the simple push of the Do Not Disturb Button, this model also lets you divert all incoming calls directly to the Integrated Digital Answering Machine.

Uniden quality and performance makes the WDECT 2345 + 1 an outstanding Digital choice.

Suggested Retail: \$179.00

The WDECT 2305 and WDECT 2380 is available as an additional handset and charging base. Suggested Retail: \$79.00 for the WDECT 2305 and \$169.00 for the WDECT 2380
