Range Brochure PDF

Operating Manual PDF

Designed and engineered in Japan, Uniden's WDECT 2385 uses the innovative 2.4GHz WDECT technology. WDECT is a Wideband digital technology which delivers increased clarity, range and security.

The WDECT 2385 is innovative in its design with a sleek slide design. This cordless phone is unique in every way possible, allocate a unique choice of 7 backlit screen colours, 20 Preset Polyphonic Ringtones and/or 30 Preset Animations to each person in your telephone directory so you will be able to easily identify who is calling before you even answer the phone.

The digital cordless phone also comes equipped with an audio cable, which allows you to record your own ringtone from your MP3 player or sound system.

This great product also allows Two-Way Communication between Handsets Anywhere without the Base as well as a Baby Monitor or Room Monitor feature. Also have the handsfree convenience of a digital duplex speakerphone on the handset makes communication a breeze.

Uniden quality and performance makes the WDECT 2385 an outstanding Digital choice.

Suggested Retail: \$229.
The WDECT 2305 and WDECT 2380 is available as an additional handset and charging base. Suggested Retail: \$99 for the WDECT 2305 and \$149 for the WDECT 2380.
