Introducing the newest addition to XDECT Technology. XDECT is the new benchmark in digital cordless phone communication offering Extended Coverage for the DECT frequency. What makes XDECT unique and superior to other cordless phones is the diversity antenna system for optimal reception and clarity by mitigating multi-path errors. The high gain antenna allows for greater range and to eliminate dropout areas in your home.

Designed and engineered in Japan, Uniden's XDECT 8005 has been purpose built for Australia and New Zealand. Ideal for high-density urban living - the XDECT range is wireless (WiFi) Network Friendly meaning the cordless phone will not interfere with other wireless networks in the surrounding area.

See how the XDECT 80xx series performed when tested against one of the tallest buildings in the world

Uniden Long Range XDECT Cordless P...

XDECT

EXTENDED DIGITAL

The XDECT 80xx Series other stand-out features aimed at providing the user with enhanced control over incoming phone calls. For easier caller identification, the XDECT 8000 Series also enables the user to allocate polyphonic ringtones to individual callers in addition to displaying caller ID.

The latest XDECT 80xx series is equipped with a headset jack so you can add a handsfree headset to it and a belt clip. The Digital Duplex Speakerphone on the handset makes handsfree communication a breeze. The Uniden XDECT 80xx Series is also compatible with an optional repeater (XDECT R002 or XDECT R001^A) giving the phone system the capability of extending the range even further and ideal for larger households or businesses that require that extra range.

Uniden quality and performance make the XDECT 8005 an outstanding and reliable digital choice.
