:: Uniden Australia ::

Phone System offers built in Bluetooth allowing you to pair up to 2 Mobile Phones to your landline.

Another important benefit of the XDECT R Dual Mode Bluetooth Phone is the ability to eliminate mobile phone dead spots throughout the home. Utilising in-built Repeater Stations in the Base of each Cordless Handset as well as a Diversity High Gain Antenna System, the XDECT R system offers unprecedented Talking Range and Coverage. Once a Mobile Phone is paired with the Uniden system, incoming Mobile Calls can achieve the same performance as those connected to the Landline*.

Another important benefit of the XDECT R Dual Mode Bluetooth phone presents you with a viable alternative for staying connected while at home. For others, it could mean they are able to take advantage of competitive mobile-to-mobile call rates, while still enjoying the comfort of talking on the ergonomically designed Home Phone.

The XDECT R Dual Mode Bluetooth Cordless Phone can be connected to up to 2 Mobile Phones at a time, making it ideal for busy professionals, the active family or a small business. Other key features include an Integrated Digital Answering Machine, advanced bright Backlit Blue LCD and Caller ID Display and Remote Access as well as a Do Not Disturb function to provide greater control over incoming calls.

Uniden understands that the mobile phone is an integral part of today's modern lifestyle, with many Australian households and businesses listing a mobile as their primary contact number. The built-in Bluetooth Technology is a distinct advantage in the elimination of Drop Out Areas in your home.

Uniden's quality and performance make the XDECT R035BT + 1 an outstanding and reliable digital choice.
